chemical compounds exhibiting inhibition of the biosynthetic pathway to terpenoids via 1-deoxy-D-xylulose 5-phosphate upstream from IPP in the test according to Claim 1 excluding treatment with fosmidomycin.

24. (Amended) A method for inhibiting in chloroplasts of plants an enzyme in the biosynthetic pathway to terpenoids via 1-deoxy-D-xylulose 5-phosphate by treatment with a chemical compound selected from the class of chemical compounds exhibiting inhibition of the biosynthetic pathway to terpenoids via 1-deoxy-D-xylulose 5-phosphate upstream from IPP in the test according to Claim 1 excluding treatment with fosmidomycin.

25. (Amended) An inhibitor exhibiting inhibition of the biosynthetic pathway to terpenoids via 1-deoxy-D-xylulose 5-phosphate upstream from IPP in the test according to Claim 1 except fosmidomycin.
